

Dear FCC, I am a Christian woman with two young children, my children and I listen to nothing else on the radio except AIR 1. We all absolutely love listening to good Christian music. I do not want my eight year old listening to all the other nonsense on the radio it's so negative. I know for a fact that if AIR1 was taken off the radio there would be a lot of upset people in Boise and all the surrounding cities. There is more than enough classic rock and pop on the stations and to lose AIR1 would be heartbreaking. There are no other Christian stations out there that don't play commercials and I love that they don't. I believe the music on the radio now days is violent, sexual, and trashy. I don't want my daughter or any other child singing about sex at eight like I remember growing up, it's just not right. Thank you for your time, Kathy L Biggs
